

Computer Vision – Programming Project 1

王順興 0210184

Structure:

1. Init_Read.m: Bootstrap script for global constant setting and data set reading
2. readSets.m: Helper function to read the required training and testing samples
3. GaussianMLE.m: Script to test Gaussian Fitting and Inference
4. gaussianMLFitting.m: Helper function for Gaussian Fitting
5. GammaMLE.m: Script to test Gamma Fitting and Inference
6. gammaMLFitting.m: Helper function for Gamma Fitting
